December 10, 2012

To the members of the Scotland County Board of Education and Citizens of Scotland County, North Carolina:

In compliance with the Public School Laws of North Carolina, the Comprehensive Annual Financial Report of the Scotland County Board of Education, operating as the "Scotland County Schools", for the fiscal year ended June 30, 2012, is herewith submitted. Responsibility for the accuracy, completeness and clarity of the report rests with the Superintendent and the Chief Financial Officer.

The report has been prepared by the Finance Department in accordance with generally accepted accounting principles. We believe the data presented is accurate in all material respects and that it is presented in a manner designated to fairly reflect the financial position and results of operations of the Board. All disclosures necessary to enable the reader to gain maximum understanding of the Board's financial activity have been included.

This letter of transmittal is designed to complement Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

REPORTING ENTITY

The Scotland County Board of Education (Board), elected by the citizens of Scotland County, is the level of government having oversight responsibility and control over activities related to the public schools in Scotland County, North Carolina. N.C. General Statutes empower the Scotland County Board of Education with general control and supervision of all matters pertaining to the schools in the system. For the 2011-2012 fiscal year, the school system served approximately 6,000 students from kindergarten through 12th grade in 8 elementary schools, 3 middle schools, 1 high school and 2 special/alternative schools. The school system provides general, special and vocational education services. The school system receives local, State, and federal government funding and must comply with the legal requirements of each funding source entity. While the Board does receive county funding, the county is not entitled to share in any surplus nor is it required to finance any deficits. The Board has no tax levying or borrowing authority and is required to maintain accounting records according to a Uniform State format.

The Board consists of eight members elected for staggered terms of four years. The Chair and Vice Chair are elected by a majority vote of the Board each year. The Superintendent serves as secretary to the Board.

FINANCIAL AND BUDGETARY CONTROL

In order to meet the challenging learning experiences provided to the students attending Scotland County Schools, the Board must use a variety of funding resources, including local, State, federal and private grants while complying with legal requirements of each funding source entity. In doing so, the Board is unable to summarize all governmental financial transactions and balances in one accounting entity. Instead, the accounting system is divided into three separate entities; each referred to as a "fund". The Board's funds are divided into governmental, proprietary and fiduciary. Each fund is a self-balancing set

Letter of Transmittal (continued)

of accounts, which are segregated for the purpose of carrying on specific activities in accordance with legal requirements, generally accepted accounting principles, special regulations or other limitations. Governmental fund types include general, special revenue and capital projects. The enterprise fund is a proprietary fund type, with the administrative fund being a fiduciary fund type. The enterprise fund and fiduciary fund are presented on a full accrual basis, while the other funds are maintained on a modified accrual basis.

Internal accounting controls are given consideration in developing and improving the Board's accounting system. Internal controls are designed to provide reliability of financial records for preparing financial statements and maintaining accountability for assets and are to provide reasonable assurance regarding the safeguarding of assets from unauthorized use or disposition. We believe that the Board's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

North Carolina General Statues requires all governmental units in the state to adopt a balanced budget by July 1 of each year. The Board has the final approval over the budget and primary accountability for fiscal matters (including any deficits). The Board's annual Budget Resolution authorizes expenditures by purpose on a modified accrual basis. For internal management purposes, the budget is detailed and compared to expenditures and encumbrances by line item within each function and project. The budget amounts reflected in the accompanying financial statements represent the final budgets as amended for the fiscal year. The Board also uses a purchase order encumbrance system that records and shows encumbrances outstanding against each line item of expenditures. Outstanding encumbrances at the end of the fiscal year related to normal operations are considered to be continuing contracts and are transferred at the end of the fiscal year to appropriations in future years.

MAJOR INITIATIVES

The focus of the school system for the next few years will be:

- Introducing Common Core and Essential Standards to teachers district-wide;
- Providing staff development to improve instruction to levels necessary to meet the new standards;
- Increase technology capabilities in all schools to prepare for online testing;
- Decrease dropout rate;
- Prepare students for ACT;
- Provide necessary remediation for students based on PLAN scores;
- Decrease achievement gaps for all subgroups;
- Integrate Fastforward to help the county-wide literacy issues among children as well as adults.

As required by the State Department of Public Instruction, Scotland County Schools maintains a ten-year facilities plan that has been submitted and approved by the County Commissioners and the State Department of Public Instruction.

ECONOMIC CONDITION AND OUTLOOK

The financial health of the Scotland County Board of Education is largely dependent upon the economic prospects of the State of North Carolina and of the County of Scotland. The State of North Carolina has felt the effects of the nationwide financial crisis since the second half of 2008. For the fourth year in a row, there has been a required reversion from our State allotment in excess of \$1 million dollars.

Scotland County has a population of approximately 36,000 with very little growth experienced over the past ten years. Over the past decade, Scotland County has lost numerous manufacturing jobs. Several of the largest employers, including Abbott Labs, Eaton Corporation and WestPoint Stevens – combined

amounting to approximately 4,000 jobs – have ceased operations in Scotland County within the last ten years. Currently, Scotland County Schools and the Scotland Health Care System are the two largest employers in the county.

Scotland County Board of Education has experienced a steady decline in student enrollment of approximately 2% per year over the past 5 years. Due to the economic issues facing Scotland County and lack of growth, the Board expects this trend to continue for the foreseeable future.

INDEPENDENT AUDIT

Anderson Smith & Wike PLLC has audited the financial records and transactions of the Scotland County Board of Education for the year ended June 30, 2012. They are a firm of independent certified public accountants. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the federal Single Audit Act Amendments of 1996 and related OMB Circular A-133 and the State Single Audit Implementation Act. The auditors' report is included in the financial section of this report.

FINANCIAL REPORTING AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) and the Association of School Business Officials (ASBO) awarded Certificates of Achievement for Excellence in Financial Reporting to the Board for its comprehensive annual financial report for the year ended June 30, 2011. In order to be awarded Certificates of Achievement, the Board published an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA and ASBO to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

The preparation of the Comprehensive Annual Financial Report in a timely manner could not have been accomplished without the efforts and dedication of the Superintendent's staff, Finance Department and our independent audit firm. We would like to express appreciation to all staff members who assisted in the preparation of this report. A copy of this report will be made available for public inspection in the Superintendent's office and on our website at <u>www.scotland.k12.nc.us</u>.

Respectfully submitted,

Rick Stout Superintendent

INDEPENDENT AUDITORS' REPORT

To the Scotland County Board of Education Laurinburg, North Carolina

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the Scotland County Board of Education, as of and for the year ended June 30, 2012, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Scotland County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Scotland County Board of Education as of June 30, 2012, and the respective changes in financial position and its cash flows, where applicable, thereof and the respective budgetary comparison for the General, State Public School and Federal Grants funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 19, 2012 on our consideration of the Scotland County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Scotland County Board of Education's basic financial statements. The introductory section, the individual nonmajor fund schedule, budgetary schedules, and the statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The individual nonmajor fund schedule and budgetary schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole.

Anderson Smith & Wike PLLC

October 19, 2012 Rockingham, North Carolina (910) 997-1418 This section of the Scotland County Board of Education's (the "Board") financial report represents our discussion and analysis of the financial performance of the Board for the year ended June 30, 2012. This information should be read in conjunction with the audited financial statements included in this report.

Financial Highlights

For the fiscal year ended June 30, 2012, the Board's total government-wide net assets decreased by \$149,000, or .4%. Governmental activities net assets decreased by \$150,000, or .4%, and business-type activities net assets increased by \$1,000, or 0.1%.

- Total government-wide invested in capital assets, net of related debt, decreased by \$904,000, or 2.3% from the prior year. Governmental activities total invested in capital assets, net of related debt, decreased by \$903,000, or 2.3%, and business-type activities total invested in capital assets decreased by \$1,000, or .4%.
- Total restricted net assets decreased by \$131,000, or 13.2%. Restricted net assets are found only in the governmental activities.
- The Board's total government-wide unrestricted net assets at June 30, 2012 increased by \$885,000 over the prior year. Governmental activities unrestricted net assets increased by \$883,000 while business-type activities unrestricted net assets increased by \$2,000 over the prior year.

The decrease in governmental activities total net assets resulted from operational philosophy changes implemented in the previous year. These changes were implemented as a planning measure to maintain current operating levels with expected funding decreases from State and federal sources.

Construction was completed on the Wagram Primary School expansion project. This project allowed the Board to move students previously at Shaw Elementary to Wagram Primary. In turn, this project allowed the Board to close East Laurinburg (Alternative Learning Academy) and move those students to Shaw, furthering the consolidation of operations and saving dollars.

The Board receives funding from the Scotland County Board of Commissioners under Chapter 707 of the 1963 Session Laws, which was amended by the 2002 General Assembly. For the 2011-2012 fiscal year, the Board of Education received a 5.2% decrease in County appropriation.

Overview of the Financial Statements

The audited financial statements of the Scotland County Board of Education consist of four components. They are as follows:

- Independent Auditors' Report
- Management's Discussion and Analysis (required supplementary information)
- Basic Financial Statements
- Required supplemental section that presents budgetary schedules and other schedules for governmental and enterprise funds.

The *Basic Financial Statements* include two types of statements that present different views of the Board's finances. The first is the *Government-wide Statements*. The government-wide statements are presented on the full accrual basis of accounting and include the statement of net assets and the statement of activities. The statement of net assets includes all of the Board's assets and liabilities.

Assets and liabilities are classified in the order of relative liquidity for assets and due date for liabilities. This statement provides a summary of the Board's investment in assets and obligations to creditors. Liquidity and financial flexibility can be evaluated using the information contained in this statement. The statement of activities summarizes the Board's revenues and expenses for the current year. A net (expense) revenue format is used to indicate to what extent each function is self-sufficient.

The second set of statements included in the basic financial statements is the *Fund Financial Statements*, which are presented for the Board's governmental funds, proprietary fund and fiduciary fund. These statements present the governmental funds on the modified accrual basis of accounting, measuring the near term inflows and outflows of financial resources and what is available at year-end to spend in the next fiscal year. The proprietary and fiduciary funds are presented on the full accrual basis of accounting. The fund financial statements focus on the Board's most significant funds. Because a different basis of accounting is used in the government-wide statements, reconciliation from the governmental fund financial statements to the government-wide statements is required. The government-wide statements provide information about the Board as an economic unit while the fund financial statements provide information on each of the financial resources of each of the Board's major funds.

Government-wide Statements

The government-wide statements report information about the unit as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the Board's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Board's net assets and how they have changed. Net assets are the difference between the Board's assets and liabilities. This is one way to measure the unit's financial health or position.

- Over time, increases or decreases in the Board's net assets are an indicator of whether its financial position is improving or deteriorating.
- To assess the Board's overall health, you need to consider additional non-financial factors such as changes in the County's property tax base and the condition of its school buildings and other physical assets.

The unit's activities are divided into two categories in the government-wide statements:

- *Governmental activities*: Most of the Board's basic services are included here, such as regular and special education, transportation, and administration. County funding and State and federal aid finance most of these activities.
- *Business-type activities*: The Board charges fees to help it cover the costs of certain services it provides. School food service is included here.

The government-wide statements are shown as Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the Board's funds, focusing on its most significant or "major" funds - not the unit as a whole. Funds are accounting devices the Board uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by State law, such as the State Public School Fund.
- The Board has established other funds to control and manage money for a particular purpose or to show that it is properly using certain revenues, such as in the Federal Grants Fund.

Scotland County Board of Education has three types of funds:

Governmental funds: Most of the Board's basic services are included in the governmental funds, which generally focus on two things – 1) how cash and other assets that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. As a result of this focus, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the coming year to finance the Board's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental fund statements, in the form of a reconciliation, explains the relationship (or differences) between the government-wide and the fund financial statements. The Board has several governmental funds: the General Fund, the State Public School Fund, the Individual Schools Fund, the Capital Outlay Fund and the Federal Grants Fund.

The governmental fund statements are shown as Exhibits 3, 4, 5 and 6 of this report.

Proprietary funds: Services for which the Board charges a fee are generally reported in the proprietary funds. The proprietary fund statements are reported on the same full accrual basis of accounting as the government-wide statements. The Scotland County Board of Education has one proprietary fund - an enterprise fund – the School Food Service Fund.

The proprietary fund statements are shown as Exhibits 7, 8, and 9 of this report.

Fiduciary Funds: The Board is the trustee, or fiduciary, for assets that belong to others, such as the Private Purpose Trust Fund. The Board is responsible for ensuring that the assets reported in this fund are used only for their intended purpose and by those to whom the assets belong. The Board excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The fiduciary fund statements are shown as Exhibits 10 and 11.

Financial Analysis of the Board as a Whole

Net assets are an indicator of the fiscal health of the Board. Assets exceeded liabilities by \$40.4 million as of June 30, 2012 as compared to \$40.5 million as of June 30, 2011, a decrease of \$149,000. The largest component of net assets is invested in capital assets, net of related debt of \$38.0 million, which comprises 94.1% of the total net assets. Following is a summary of the Statement of Net Assets:

	 Governmental Activities				Business-ty	Activities	 Total Primary Government				
	 6/30/12 6/30		6/30/11	/30/11 6/30/12			6/30/11	 6/30/12		6/30/11	
Current assets Capital assets Total assets	\$ 7,056,561 37,907,540 44,964,101	\$	6,636,541 39,009,382 45,645,923	\$	957,457 281,373 1,238,830	\$	956,456 282,478 1,238,934	\$ 8,014,018 38,188,913 46,202,931	\$	7,592,997 39,291,860 46,884,857	
Current liabilities Long-term liabilities Total liabilities	 4,262,419 1,384,147 5,646,566		4,697,517 1,480,547 6,178,064		136,711 27,429 164,140		141,093 24,040 165,133	 4,399,130 1,411,576 5,810,706		4,838,610 1,504,587 6,343,197	
Invested in capital assets, net of related debt Restricted net assets Unrestricted net	37,708,562 860,894		38,611,421 991,395		281,373		282,478	37,989,935 860,894		38,893,899 991,395	
assets (deficit) Total net assets	\$ 748,079 39,317,535	\$	(134,957) 39,467,859	\$	793,317 1,074,690	\$	791,323 1,073,801	\$ 1,541,396 40,392,225	\$	656,366 40,541,660	

Table 1 Condensed Statement of Net Assets As of June 30, 2012 and 2011

The net assets of the Board's governmental activities decreased \$150,000 during the year, from \$39.5 million at June 30, 2011 to \$39.3 million at June 30, 2012, indicating a decline in the financial condition of the Board. This decrease is mainly attributable to a \$903,000 decrease in net assets invested in capital assets, net of related debt offset by an \$883,000 increase in unrestricted net assets. The decrease in net assets invested in capital assets, net of related debt offset by an \$883,000 increase in unrestricted net assets. The decrease over capital additions for the year. Unrestricted net assets increased by \$883,000.

The net assets of the Board's business-type activities was \$1.1 million at both June 30, 2012 and 2011. The following table shows the revenues and expenses of the Board for the current and prior fiscal years:

	 Governmental Activities				Business-typ	ctivities	Total Primary Government

Table 2Condensed Statement of ActivitiesFor the Fiscal Years Ended June 30, 2012 and 2011

Total governmental activities generated revenues of \$61.6 million while expenses in this category totaled \$61.7 million for the year ended June 30, 2012, resulting in the aforementioned decrease in net assets of \$150,000 (including transfers to business-type activities of \$35,000). Comparatively, revenues were \$69.9 million, expenses totaled \$68.1 million and transfers out were \$49,000 for the year ended June 30,

2011, resulting in an increase in net assets of \$1.7 million. In comparing the two periods, the year-overyear decline was \$1.8 million. This decline is primarily attributable to a decrease in federal funding related to the expiration of American Recovery and Reinvestment Act (ARRA) grants. The Board received several million dollars of ARRA revenues over the past several years. Virtually all of this funding has now expired.

The Board's primary sources of revenues were funding from the State of North Carolina, Scotland County, and the United States Government, which respectively comprised 67.0%, 17.4% and 10.9% of our total governmental activities revenues. As would be expected, the major component of our expenditures was instructional services which accounted for 78.4% of our total expenditures during the most recent fiscal year. Of the remaining 21.6% of our total expenditures, 21.3% was attributable to system-wide support services.

Our business-type activities generated revenues of \$3.8 million, while expenses in this category also totaled \$3.8 million for the year ended June 30, 2012. For the year, net assets increased by \$1,000, including \$35,000 of transfers from governmental activities. Comparatively, net assets decreased by \$4,000 for the year ended June 30, 2011. In comparing the two years, profitability remained nearly unchanged. Revenues for the year ended June 30, 2012 increased year-over-year by \$68,000 when compared to the year ended June 30, 2011. This increase in revenues was primarily attributable to an increase in federal reimbursements received. Expenses increased by \$48,000 due mainly to increased food costs.

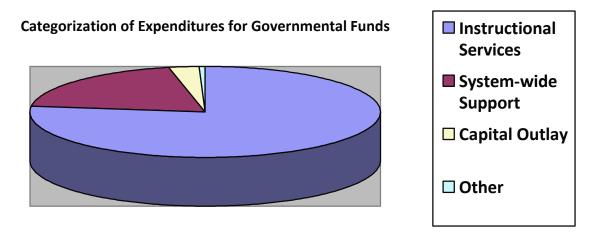

Financial Analysis of the Board's Funds

Governmental Funds: The focus of Scotland County Board of Education's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Board's financing requirements.

The Board's governmental funds reported a combined fund balance of \$4.7 million at June 30, 2012, an increase of \$824,000 over the \$3.8 million reported at June 30, 2011. The Board's General Fund reported an increase in fund balance for the year of \$936,000, compared to an increase of \$979,000 in 2011. The increases in fund balance over the past two years are the result of intentional measures taken by the Board to build fund balance reserves to help offset anticipated cuts in State and federal funding.

The State Public School Fund and Federal Grants Fund do not carry fund balance. All revenues are expended in the year received. Due to the expiration of federal Recovery Act funding, revenues (and expenditures) in the Federal Grants Fund decreased by \$4.8 million for the fiscal year ended June 30, 2012. State revenues and expenditures remained relatively unchanged with an increase of \$395,000 or 1%, for the fiscal year ended June 30, 2012.

The Capital Outlay fund reported a decrease in fund balance for the 2012 year of \$196,000. Capital Outlay revenues decreased by \$2.7 million for the fiscal year ended June 30, 2012. This decrease is primarily attributable to an additional \$2.2 million of funding received in the previous year from the County that was used for the Wagram expansion project.

Expenditures presented on modified accrual basis of accounting.

Proprietary Fund: The Board's business-type fund, the School Food Service Fund, reported a increase in net assets of \$1,000 for the fiscal year ended June 30, 2012 compared to an decrease of \$4,000 for the same 2011 period, a year-over-year improvement of \$5,000. See the section above titled *Financial Analysis of the Board as a Whole* for more discussion regarding the Board's School Food Service Fund operations for the year ended June 30, 2012.

General Fund Budgetary Highlights

Over the course of the year, the Board revised the budget several times to account for changes in revenue expectations and program allocations. The effect of these revisions was to increase the original budget by \$1.6 million during the year. Since several revenue sources are either unknown or uncertain at the beginning of the fiscal year when the original budget is adopted, budget revisions are necessary throughout the year to recognize these adjustments.

For the year, the Board's General Fund reported an increase in fund balance of \$936,000. Revenues from Scotland County for the local operating budget decreased \$558,000, or 5.2%, from the prior year. Overall, total General Fund revenues decreased by \$1.4 million from the prior year while expenditures decreased \$1.3 million, or 9.8%. The decrease in expenditures was in both instructional school-based support and system-wide operational support services. The decrease in expenditures was due to cost cutting measures taken by the Board to help offset the expiration of federal ARRA revenues.

Capital Assets

Total primary government capital assets were \$38.2 million at June 30, 2012 compared to \$39.3 million at June 30, 2011, a decrease of 2.8%. The following is a summary of the Board's capital assets, net of depreciation, at June 30, 2012 and 2011. More detailed information about the Board's capital assets is contained in Note 3 to the financial statements.

Table 3Summary of Capital AssetsAs of June 30, 2012 and 2011

Debt Outstanding

During the year, the Board's long-term debt decreased by \$199,000 from \$398,000 at June 30, 2011 to \$199,000 at June 30, 2012. The Board is limited by North Carolina General Statutes with regards to the types of debt it can issue and for what purpose that debt can be used. The County holds virtually all debt issued for school capital construction. More detailed information about the Board's outstanding debt is contained in Note 3 to the financial statements.

Economic Factors

County funding is a major source of income for the school district; therefore, the County's economic outlook directly affects that of the school district. Scotland County's economy remains vested in industrial manufacturing. Along with the national and State economy, our local economy has felt the impact of the recent recession. The following factors impact the current economic outlook of Scotland County and the Board of Education:

- The Board's student population decreased for the second consecutive year from 6,153 in 2010-2011 to 6,046 in 2011-2012.
- Scotland County's unemployment rate continues to be higher than the national and State averages.
- The Scotland County Economic Development Program was created to promote commercial development, as well as industrial development and growth within the county and surrounding areas.

All of these factors were considered in preparing the Board's budget for the new fiscal year. The Board's budget was created with a focus on protecting instructional program allocations and personnel.

Requests for Information

This report is intended to provide a summary of the financial condition of Scotland County Board of Education. Questions or requests for additional information should be addressed to:

Jay Toland, Chief Financial Officer Scotland County Board of Education 322 South Main Street Laurinburg, NC 28352

SCOTLAND COUNTY BOARD OF EDUCATION Exhibit 5 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2012

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 823,678
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded	
capital outlays in the current period.	(987,523)
Proceeds from the sale of capital assets are recorded as revenues in the fund statements but not in the statement of activities.	(108,780)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of	100.000
these differences in the treatment of long-term debt and related items.	198,983
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Compensated absences Loss on disposal of capital assets	 (71,143) (5,539)
Total changes in net assets of governmental activities	\$ (150,324)

NONCASH OPERATING AND NONCAPITAL FINANCING ACTIVITIES:

The School Food Service Fund received donated commodities with a value of \$208,486 during the fiscal year. The receipt of these commodities is reflected as a nonoperating revenue on Exhibit 8. The consumption of these commodities is recorded as an operating expense.

The General Fund paid salaries and benefits of \$34,747 to administrative personnel of the School Food Service Fund during the fiscal year. The payments are reflected as an operating transfer in and an operating expense on Exhibit 8.

The School Food Service Fund reported a gain on disposal of capital assets of \$7,638.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Scotland County Board of Education conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. <u>Reporting Entity</u>

The Scotland County Board of Education (Board) is a Local Education Agency empowered by State law [Chapter 115C of the North Carolina General Statutes] with the responsibility to oversee and control all activities related to public school education in Scotland County, North Carolina. The Board receives State, local, and federal government funding and must adhere to the legal requirements of each funding entity. The Board has no component units.

B. Basis of Presentation

Government-wide Statements: The statement of net assets and the statement of activities display information about the Board. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the effect of internal activities upon revenues and expenses. These statements distinguish between the *governmental* and *business-type activities* of the Board. Governmental activities generally are financed through intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Board and for each function of the Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Board's funds, including its fiduciary fund. Separate statements for each fund category – *governmental, proprietary and fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The fiduciary fund is presented separately.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities. All expenses are considered to be operating expenses.

The Board reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Board. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. This fund is the "Local Current Expense Fund," which is mandated by State law [G.S. 115C-426].

State Public School Fund. The State Public School Fund includes appropriations from the Department of Public Instruction for the current operating expenditures of the public school system.

Federal Grants Fund. The Federal Grants Fund includes appropriations from the U.S. Government for the current operating expenditures of the public school system.

Capital Outlay Fund. The Capital Outlay Fund accounts for financial resources to be used for the acquisition and construction of major capital facilities (other than those financed by proprietary funds and trust funds). It is mandated by State law [G.S.115C-426]. Capital projects are funded by Scotland County appropriations, restricted sales tax moneys, proceeds of county debt issued for public school construction, lottery proceeds as well as certain State assistance.

The Board reports the following nonmajor governmental fund:

Individual Schools Fund. The Individual Schools Fund includes revenues and expenditures of the activity funds of the individual schools. The primary revenue sources include funds held on the behalf of various clubs and organizations, receipts from athletic events, and proceeds from various fund raising activities. The primary expenditures are for athletic teams, club programs, activity buses, and instructional needs.

The Board reports the following major enterprise fund:

School Food Service Fund. The School Food Service Fund is used to account for the food service program within the school system.

The Board reports the following fiduciary fund:

Private Purpose Trust Fund. The Private Purpose Trust Fund is used to account for scholarship money under the control of the Board for the benefit of students in the County.

C. Measurement Focus and Basis of Accounting

Government-wide, Proprietary and Fiduciary Fund Financial Statements. The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Board gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Board considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. These could include federal, State, and county grants, and some charges for services. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the Board funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Board's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

All governmental and business-type activities and enterprise funds of the Board follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

D. Budgetary Data

The Board's budgets are adopted as required by the North Carolina General Statutes. Annual budgets are adopted for all funds, except for the administrative fiduciary fund and the individual schools special revenue funds, as required by the North Carolina General Statutes. No budget is required by State law for individual school funds. All appropriations lapse at the fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the purpose level for all annually budgeted funds. The Board has authorized the Superintendent to transfer amounts within a purpose code within a fund with proper justification. The Superintendent may not transfer any amounts between funds or from any contingency appropriation within a fund. Amendments are required for any revisions that alter total expenditures of any fund or that change purpose appropriations. All amendments must be approved by the governing board. During the year, several amendments to the original budget were necessary. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, and Fund Equity

1. Deposits and Investments

All deposits of the Board are made in board-designated official depositories and are secured as required by State law [G.S. 115C-444]. The Board may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Board may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit. The Board also has money credited in its name with the State Treasurer and may issue State warrants against these funds.

State law [G.S. 115C-443] authorizes the Board to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; the North Carolina Capital Management Trust (NCCMT), an SEC-registered (2a-7) money market mutual fund; and the North Carolina State Treasurer's Short Term Investment Fund (STIF). The STIF is managed by the staff of the Department of State Treasurer and operated in accordance with State laws and regulations. It is not registered with the SEC. The STIF consists of an internal portion and an external portion in which the Board participates. Investments are restricted to those enumerated in G.S. 147-69.1.

The Board's investments are reported at fair value as determined by quoted market prices. The NCCMT Cash Portfolio's securities are valued at fair value, which is the NCCMT's share price. The STIF securities are reported at cost and maintain a constant \$1 per share value. Under the authority of G.S. 147-69.3, no unrealized gains or losses of the STIF are distributed to external participants of the fund.

2. Cash and Cash Equivalents

The Board pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Inventories

The inventories of the Board are valued at cost and the Board uses the first-in, first-out (FIFO) flow assumption in determining cost. Proprietary Fund inventories consist of food and supplies and are recorded as expenses when consumed.

4. Capital Assets

The Board's capital assets are recorded at original cost. Donated assets are listed at their estimated fair value at the date of donation or forfeiture. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets. Certain items acquired before July 1, 1990 are recorded at an estimated original historical cost. The total of these estimates is not considered large enough that any errors would be material when capital assets are considered as a whole.

For capital assets utilized in governmental activities, it is the policy of the Board to capitalize those assets costing more than \$5,000 with an estimated useful life of two or more years, while for capital assets utilized in business-type activities, the Board's policy is to capitalize those assets costing more than \$500 with an estimated useful life of two or more years. The cost of normal repairs that do not add to the value of the asset or materially extend asset lives is not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

|--|

Buildings and improvements	15 - 50
Equipment and furniture	3 - 10
Vehicles	6

Depreciation for assets that serve multiple purposes cannot be allocated ratably and is therefore reported as "unallocated depreciation" on the Statement of Activities.

5. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

6. Compensated Absences

The Board follows the State's policy for vacation and sick leave. Employees may accumulate up to thirty (30) days earned vacation leave with such leave being fully vested when earned. For the Board, the current portion of the accumulated vacation pay is not considered to be material. The Board's liability for accumulated earned vacation and the salary-related payments as of June 30, 2012 is recorded in the government-wide and proprietary fund financial statements on a FIFO basis. An estimate has been made based on prior years' records of the current portion of compensated absences.

The sick leave policy of the Board provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Board has no obligation for accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

7. Net Assets/Fund Balances

Net Assets

Net assets in the government-wide and proprietary fund financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net assets represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments, or imposed by law through State statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of three classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Restricted fund balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - portion of fund balance that is restricted by State Statute [G.S. 115C-425(a)].

Restricted for school capital outlay - portion of fund balance that can only be used for school capital outlay. [G.S. 159-18 through 22]

Restricted for Individual Schools – revenue sources restricted for expenditures for the various clubs and organizations, athletic events, and various fund raising activities for which they were collected.

Assigned fund balance – portion of fund balance that the Board of Education intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted. The Board of Education approves the appropriation.

Unassigned fund balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Board of Education has a management policy for revenue spending that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-board of education funds, board of education funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Board of Education.

- 8. Reconciliation of Government-wide and Fund Financial Statements
- a. <u>Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets</u>

The governmental fund balance sheet includes a reconciliation between *fund balance - total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. The net adjustment of \$34,652,893 consists of several elements as follows:

Description	Amount
Capital assets used in governmental activities are not financial resources and are therefore not reported in the funds (total capital assets on government-wide statement in governmental activities column) Less accumulated depreciation	\$ 67,097,588 (29,190,048)
Net capital assets	37,907,540

Total adjustment

Liabilities that, because they are not due and payable in the current period, do not require current resources to pay and are therefore not recorded in the fund statements: Installment purchases (198,978) Compensated absences (3,055,669)

\$ 34.652.893

b. <u>Explanation of certain differences between the governmental fund statement of revenues</u>, <u>expenditures</u>, and changes in fund balance and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. There are several elements of that total adjustment of (\$974,002) as follows:

Description		Amount
Capital outlay expenditures recorded in the fund statements but capitalized as assets in the statement of activities	\$	831,061
Depreciation expense, the allocation of those assets over their useful lives, that is recorded on the statement of activities but not in the fund statements		(1,818,584)
Proceeds from the sale of capital assets		(108,780)
Principal payments on debt owed are recorded as a use of funds on the fund statements but again affect only the statement of net assets in the government-wide statements		198,983
Expenses reported in the statement of activities that do not require the use of current resources to pay are not recorded as expenditures in the fund statements: Compensated absences are accrued in the government-wide statements		
but not in the fund statements because they do not use current resources		(71,143)
Loss on disposal of capital assets		<u>(5,539)</u>
Total adjustment	<u>\$</u>	<u>(974,002)</u>

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess of Expenditures Over Appropriations

During the fiscal year ended June 30, 2012, the Board reported expenditures within the School Food Service Fund that violated State law [G.S. 115C-441] because they exceeded the amount appropriated in the budget ordinance for operating expenditures by \$183,191. Management will monitor budgets monthly and make necessary amendments to avoid expenditures in excess of appropriations.

NOTE 3 - DETAIL NOTES ON ALL FUNDS

- A. Assets
- 1. Deposits

All of the Board's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the Board's agents in the unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Board, these deposits are considered to be held by the agent in the entity's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Board or with the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Board under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each deposits under the Pooling Method. The Board has no policy regarding custodial credit risk for deposits.

At June 30, 2012, the Board had deposits with banks and savings and loans with a carrying amount of \$2,216,999 and with the State Treasurer of \$-0-. The bank balances with the financial institutions and the State Treasurer were \$2,874,081 and \$662,204, respectively. Of these balances, \$627,574 was covered by federal depository insurance and \$2,908,711 was covered by collateral held by authorized escrow agents in the name of the State Treasurer.

2. Investments

At June 30 2012, the Board had \$3,844,771 invested with the State Treasurer in the Short Term Investment Fund (STIF). The STIF is unrated and had a weighted average maturity of 1.5 years at June 30, 2012. The Board has no policy for managing interest rate, credit, concentration or foreign currency risks.

3. Accounts Receivable

Receivables at the government-wide level at June 30, 2012 are as follows:

	ot (e from (to) her funds Internal alances)	Due from other overnments	Other	 Total
Governmental activities: General Fund Other governmental activities	\$	122,981 35,623	\$ ۔ 1,925,721	\$ 51,148 3,950	\$ 174,129 1,965,294

- B. Liabilities
- 1. Pension Plan and Other Postemployment Obligations
- a. Teachers' and State Employees' Retirement System

Plan Description. Scotland County Board of Education contributes to the statewide Teachers' and State Employees' Retirement System (TSERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. TSERS provides retirement benefits to plan members and beneficiaries. Article 1 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Teachers' and State Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for TSERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Plan members are required to contribute six percent of their annual covered salary and the Board is required to contribute at an actuarially determined rate. The current rate is 7.44% of annual covered payroll. The contribution requirements of plan members and Scotland County Board of Education are established and may be amended by the North Carolina General Assembly. The Board's contributions to TSERS for the years ended June 30, 2012, 2011, and 2010 were \$2,690,352, \$1,985,544, and \$1,449,597, respectively, equal to the required contributions for each year.

b. Other Postemployment Benefits

Healthcare Benefits

Plan Description. The postemployment healthcare benefits are provided through a cost-sharing multipleemployer defined benefit plan administered by the Executive Administrator and the Board of Trustees of the Comprehensive Major Medical Plan (the Plan). The Executive Administrator and the Board of Trustees of the Plan establishes premium rates except as may be established by the General Assembly in an appropriation act. The Plan's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3 of the General Statutes and may be amended only by the North Carolina General Assembly. By General Statute, the Plan accumulates contributions from employers and any earnings on those contributions in the Retiree Health Benefit Fund. These assets shall be used to provide health benefits to retired and disabled employees and their applicable beneficiaries. These contributions are irrevocable. Also by law, these assets are not subject to the claims of creditors of the employers making contributions to the Plan.

The State of North Carolina issues a publicly available financial report that includes financial statements and required supplementary information for the State's Comprehensive Major Medical Plan (also, referred to as the State Health Plan). An electronic version of this report is available by accessing the North Carolina Office of the State Controller's Internet home page <u>http://www.ncosc.net/</u> and clicking on "Financial Reports", or by calling the State Controller's Financial Reporting Section at (919) 981-5454.

Funding Policy. The Comprehensive Major Medical Plan is administered by the Executive Administrator and Board of Trustees of the Plan, which establish premium rates except as may be established by the General Assembly in an appropriation act. The healthcare benefits for retired and disabled employees are the same as for active employees, except that the coverage becomes secondary when former employees become eligible for Medicare. For employees first hired on and after October 1, 2006, future coverage as retired employees is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on and after October 1, 2006 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's total noncontributory premium. For employees hired before October 1, 2006, healthcare benefits are provided to retirees (at no charge to the retirees) who have at least five years of contributing retirement membership prior to disability or retirement. In addition, persons who became surviving spouses of retirees prior to October 1, 1986, receive the same coverage as retirees at the State's expense.

Contributions are determined as a percentage of covered monthly payroll. Annually, the monthly contribution rates to the Plan, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis, are determined by the General Assembly in the Appropriations Bill. For the fiscal years ended June 30, 2012, 2011, and 2010, the School Board paid all annual required contributions to the Plan for postemployment healthcare benefits of \$1,808,032, \$1,973,461, and \$1,827,224, respectively. These contributions represented 5.00%, 4.90%, and 4.50% of covered payroll, respectively.

Long-term Disability Benefits

Plan Description. Short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer defined benefit plan. The DIPNC is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System. Long-term disability benefits are payable as another postemployment benefit from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The Plan accumulates contributions from employers and any earnings on those contributions in the Disability Income Plan Trust Fund. The plan does not provide for automatic post-retirement benefit increases.

The State of North Carolina issues a publicly available financial report that includes financial statements and required supplementary information for the DIPNC. An electronic version of this report is available by accessing the North Carolina Office of the State Controller's Internet home page <u>http://www.ncosc.net/</u> and clicking on "Financial Reports", or by calling the State Controller's Financial Reporting Section at (919) 981-5454.

Funding Policy. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in the Teachers' and State Employees' Retirement System of North Carolina, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the

employee must not be eligible to receive an unreduced retirement benefit from the Retirement System; and (6) the employee must terminate employment as a permanent, full-time employee. An employee is eligible to receive an unreduced retirement benefit from the Retirement System after (1) reaching the age of 65 and completing five years of creditable service, or (2) reaching the age of 60 and completing 25 years of creditable service, at any age.

For members with five or more years of membership service as of July 31, 2007, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one twelfth of the annual longevity payment to which the participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of \$3,900 per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. The monthly benefit shall be further reduced by the amount of any monthly payments from the Department of Veterans Affairs, any other federal agency or any payments made under the provisions of G.S.127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided in any event, the benefits payable shall be no less than \$10 a month. When an employee qualifies for an unreduced service retirement allowance from the Retirement System, the benefits payable from DIPNC will cease, and the employee will commence retirement under the TSERS. For members who obtain five years of membership service on or after August 1, 2007, the monthly long-term disability benefit is reduced by the primary Social Security retirement benefit to which the member might be entitled should the member become age 62 during the first 36 months. After 36 months of long-term disability, there will be no further payments from the DIPNC unless the member is approved for and is in receipt of primary Social Security disability benefits. It is payable so long as the member remains disabled and is in receipt of a primary Social Security disability benefit until eligible for an unreduced service retirement benefit. When an employee qualifies for an unreduced service retirement allowance from the Retirement System, the benefits payable from DIPNC will cease, and the employee will commence retirement under the TSERS.

The Board's contributions are established in the Appropriations Bill by the General Assembly. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The contributions cannot be separated between the amounts that relate to other postemployment benefits and employment benefits for active employees. Those individuals who are receiving extended short-term disability benefit payments cannot be separated from the number of members currently eligible to receive disability benefits as an other postemployment benefit. For the fiscal years ended June 30, 2012, 2011, and 2010, the Board paid all annual required contributions to the DIPNC for disability benefits of \$188,035, \$209,429, and \$211,146, respectively. These contributions represented 0.52% of covered payroll for each of the three fiscal years.

2. Accounts Payable

Accounts payable as of June 30, 2012 are as follows:

	<u> </u>	/endors	a	Salaries nd Benefits	 Total
Governmental activities: General Fund Other governmental activities	\$	267,374 129,436	\$	126,958 1,868,151	\$ 394,332 1,997,587
Total governmental activities	\$	396,810	\$	1,995,109	\$ 2,391,919
Business-type activities: School Food Service Fund	\$	4,312	\$	73,071	\$ 77,383

3. Unearned Revenues

The balance in unearned revenues at year-end is composed of the following elements:

Business-type activities:	
Prepayments of meals (School Food Service Fund)	\$

4. Risk Management

The Board is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board participates in the North Carolina School Boards Trust (the Trust), a member funded risk management program administered by the North Carolina School Boards Association. Through the Trust, the Board maintains general liability and errors and omissions coverage of \$1 million per claim. The Trust has an annual aggregate limit for both general liability and errors and omissions of \$3,150,000 each. The Trust is reinsured through commercial companies for losses in excess of \$150,000 per claim for errors and omissions and general liability coverage. Statutory workers' compensation coverage is purchased through a private insurer for employees to the extent they are paid from Federal and local funds. Workers' compensation coverage is provided by the State of North Carolina through a self-insured fund, to the extent employees are paid from State funds. The Board also participates in the Public School Insurance Fund (the Fund), a voluntary, self-insured risk control and risk financing fund administered by the North Carolina Department of Public Instruction. The Fund insures the tangible property assets of the Board. Coverage is provided on an "all risk" perils contract. Buildings and contents are insured on a replacement cost basis. The Fund purchases excess reinsurance to protect the assets of the Fund in the event of a catastrophic event. The Fund maintains a self-insured retention of \$10 million. Excess reinsurance is purchased through commercial insurers. A limit of \$5 million per occurrence is provided on flood, earthquake, business interruption and extra expense. \$10 million per occurrence is provided on increased cost of construction.

7,923

The Board also participates in the Teachers' and State Employees' Comprehensive Major Medical Plan, a self-funded risk financing pool of the State administered by Blue Cross and Blue Shield of North Carolina. Through the Plan, permanent full-time employees of the Board are eligible to receive health care benefits up to a \$5 million lifetime limit. The Board pays the full cost of coverage for employees enrolled in the Comprehensive Major Medical Plan.

SCOTLAND COUNTY BOARD OF EDUCATION NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2012

In accordance with G.S. 115C-442, the Board's employees who have custody of the Board's monies at any given time are performance bonded through a commercial surety bond. The finance officer is bonded for \$100,000. The remaining employees that have access to funds are bonded under a blanket bond for \$100,000.

The Board carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year, and claims have not exceeded coverage in any of the past three fiscal years.

5. Long-Term Obligations

a. Installment Purchases

The Board is authorized to finance the purchase of school buses under G.S. 115C-528(a). Session law 2003-284, section 7.25 authorized the State Board of Education to allot monies for the payments on financing contracts entered into pursuant to G.S. 115C-528. The State has accepted the bid to purchase Thomas Built Buses through special third party financing arrangements. During the 2010-2011 fiscal year, the Board entered into such a financing contract for the purchase of school buses. The financing contract requires four equal principal-only payments of \$198,980 with the first payment due within 10 days of receipt of the buses and the following 3 payments due on the next 3 immediately following November 15th dates.

The future minimum payments of the installment purchases as of June 30, 2012 are as follows:

Year Ending June 30:	<u>Governmental Activities</u> <u>Principal</u>
2013	\$ 198,978

b. Long-Term Obligation Activity

The following is a summary of changes in the Board's long-term obligations for the fiscal year ended June 30, 2012:

Governmental activities:	July 1, 2011	Increases	Decreases	June 30, 2012	Current Portion
Installment purchases Compensated absences	\$ 397,961 2,984,526	\$ - 2,345,183	\$ 198,983 2,274,040	\$ 198,978 3,055,669	\$ 198,978 1,671,522
Total governmental activities	\$ 3,382,487	<u>\$ 2,345,183</u>	\$ 2,473,023	\$ 3,254,647	\$ 1,870,500
Business-type activities: Compensated absences	<u>\$</u> 77,430	\$ 76,998	\$ 75,594	\$ 78,834	<u>\$ </u>

Compensated absences related to governmental activities are typically liquidated by the General and other governmental funds.

C. Interfund Balances and Activity

1. Transfers to/from other Funds

From the General Fund to the School Food Service Fund for administrative costs

<u>\$ 34,747</u>

2. Interfund Balances

The composition of interfund balances as of June 30, 2012 is as follows:

Receivable Fund	Payable Fund	/	Amount
General Fund Capital Outlay Fund	School Food Service Fund General Fund	\$ \$	158,604 <u>35,623</u> 194,227

The amount due to the General Fund from the School Food Service Fund is for indirect cost owed for the 2011 – 2012 fiscal year. The General Fund owes the Capital Outlay Fund \$35,623 for the overpayment of funds for activity bus use. These amounts are expected to be paid prior to June 30, 2013.

D. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation.

Total fund balance - General Fund	\$ 4,013,500
Less: Stabilization by State statute Appropriated fund balance in 2012-2013 budget	 (209,752) (1,937,297)
Remaining fund balance	\$ 1,866,451

NOTE 4 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federal and State Assisted Programs

The Board has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

STATISTICAL SECTION (Unaudited)

The Statistical Section of the District's Comprehensive Annual Financial Report (CAFR) presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information say about the District's overall financial outlook.

Sections

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and operations have changed over time.

Revenue Capacity

Since the District's local revenues are primarily provided by Scotland County, these schedules on the county's revenue sources are relevant to an understanding of Scotland County's most significant local revenue source, the property tax.

Debt Capacity

Since the District has no tax-levying or debt-issuing authority, the County of Scotland provides significant funding to the school system. Selected fiscal data from the County of Scotland has been included to help the reader better understand the school system and its financial operations.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place. County information is included.

Operating Information

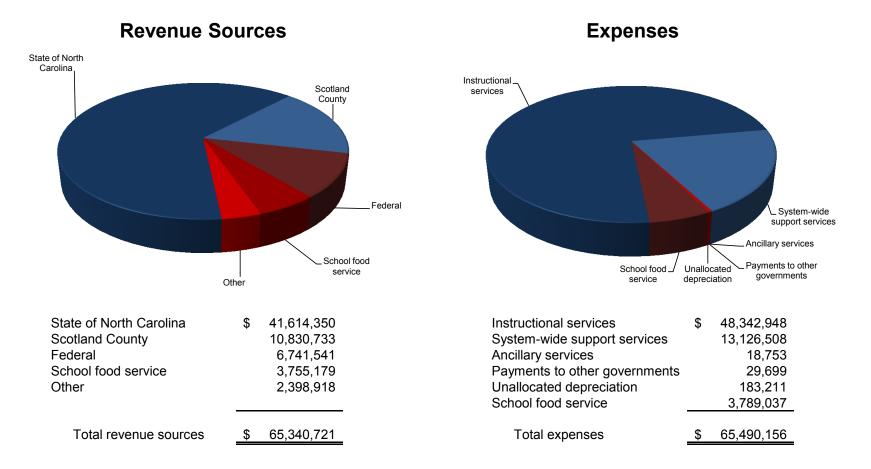

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Source: Scotland County, North Carolina, Annual Financial Reports.

Note: Nominal dollars reflect actual dollars of the period of the transaction. Constant dollars reflect dollars having a constant general purchasing power as shown by the Consumer Price Index for All Urban Consumers (CPI-U) (Calendar years 1982-1984=100).

Note: This table is a ten year schedule. However, the annual financial report for the year ended June 30, 2012 could not be obtained from Scotland County nor their auditors prior to this report being issued. Therefore, there are only nine years of comparative data noted above.
